My Projects

1. My Personal website <https://kamalsingh-portfolio.vercel.app/>

- I created this website from scratch to showcase my projects and skills
- Tech used
 - Next Js (For server side rendering)
 - Framer motion (for amazing animations)

2. Country Api App <https://coutry-api.vercel.app/>

- I created this project to showcase that I can work with APIs. Get data from back-end and display that data to user in a beautiful manner
- User can search countries by name and also filter them by location
- Tech used
 - Next Js (For server side rendering)
 - Headless ui for accessible components

3. Space Website <https://space-website-v2-phi.vercel.app/>

- I created this website to showcase that I can create a multi-page website with amazing ui
 - User can see info about planets, crew member, and space technology.
 - Used Splide Js library for accessible carousel
